

MEDITERRANEAN ADVANCED AIRWAY MANAGEMENT COURSE

12TH MAY, 2018

PROGRAMME

8.30-9.00: Registration
9.00-9.15: Welcome and Introduction

9.15-9.45:
Optimisation strategies for successful intubation
(Dr Jairaj Rangaswami, Past-president DAS)

09.45-10.15:
Videolaryngoscopy
(Dr Anil Patel, President DAS)

10.15-10.45:
Awake Tracheal Intubation
Dr Imran Ahmad (GAMC Course Director, Clinical lead Guy's Hospital)

10.45-11.15: COFFEE

11.15-12.15:
Case Based Discussions with audience participation

12.15-13.00: LUNCH

13.00-15.00: Airway Workshops

15.00-15.30: COFFEE

15.30-17.00: Airway Workshops

17.00: Feedback and Close

Afternoon Airway Workshops:

Hands on workshops with expert faculty on the following airway management techniques:

1. Awake Fiberoptic intubation:

Practising technique for oral topicalisation
Practise using scopes for successful awake tracheal intubation.

2. Fiberoptic intubation via supraglottic airway:

Practice fiberoptic intubation through supraglottic
airways using endotracheal tubes and aintree intubation catheters.

3. Videolaryngoscopy techniques:

Practice using the following devices:
Kingvision, Airtraq, CMAC, Glidescope, McGrath

4. Paediatrics:

Practice using fiberoptic intubation in children
Paediatric airway exchange catheters
Paediatric video laryngoscopy/airtraq

5. Front of neck access:

Use of Scalpel/bougie/endotracheal tube technique
Needle cricothyroidotomy/Quick trach

6. ORSIM

Simulation fiberoptic skills

7. Virtual Endoscopy

Demonstration and practice
